CORNERSTONE

Featuring lighter-weight, hollow-core units, the CornerStone system is ideal for easy construction. The patented “lug” and wedge shape allow for a strong unit-to-unit connection and maximum design flexibility without pins or clips. Concave and convex curves flow with precision, allowing for interesting wall designs.

CornerStone can be used for both low-gravity walls and taller structural walls of varying heights, allowing you to use the same wall throughout your projects.

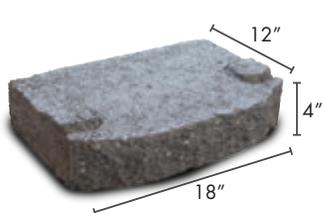

AVAILABLE COLORS

Actual colors may vary. Specification may change without notice, contact your local Western Materials office for details or to see actual colors.

Maximum gravity wall heights:
100 Series = 4'
Suitable for engineered walls up to 30'

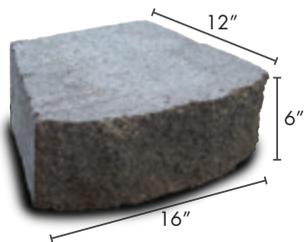

* Available in Gray or Cinnamon Frost
** Available in Gray, Cinnamon Frost, Autumn Blend, or West Valley Blend
*** Available in Gray only

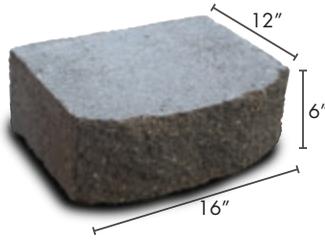

WESTERN MANORSTONE

ManorStone is designed for scaled wall projects. ManorStone is available in several shapes, including radius, flat face, and straight-sided units that can be mixed and matched to create visual interest.

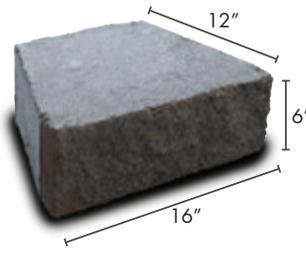

PICTURED: ANTIQUE BLEND (TOP), KHAKI (BOTTOM)

AVAILABLE COLORS

Actual colors may vary. Specification may change without notice, contact your local Western Materials office for details or to see actual colors.

Maximum wall height = 3' 6"

* Available in Gray, Khaki, Charcoal, Antique Blend, West Valley Blend, or Patio Red

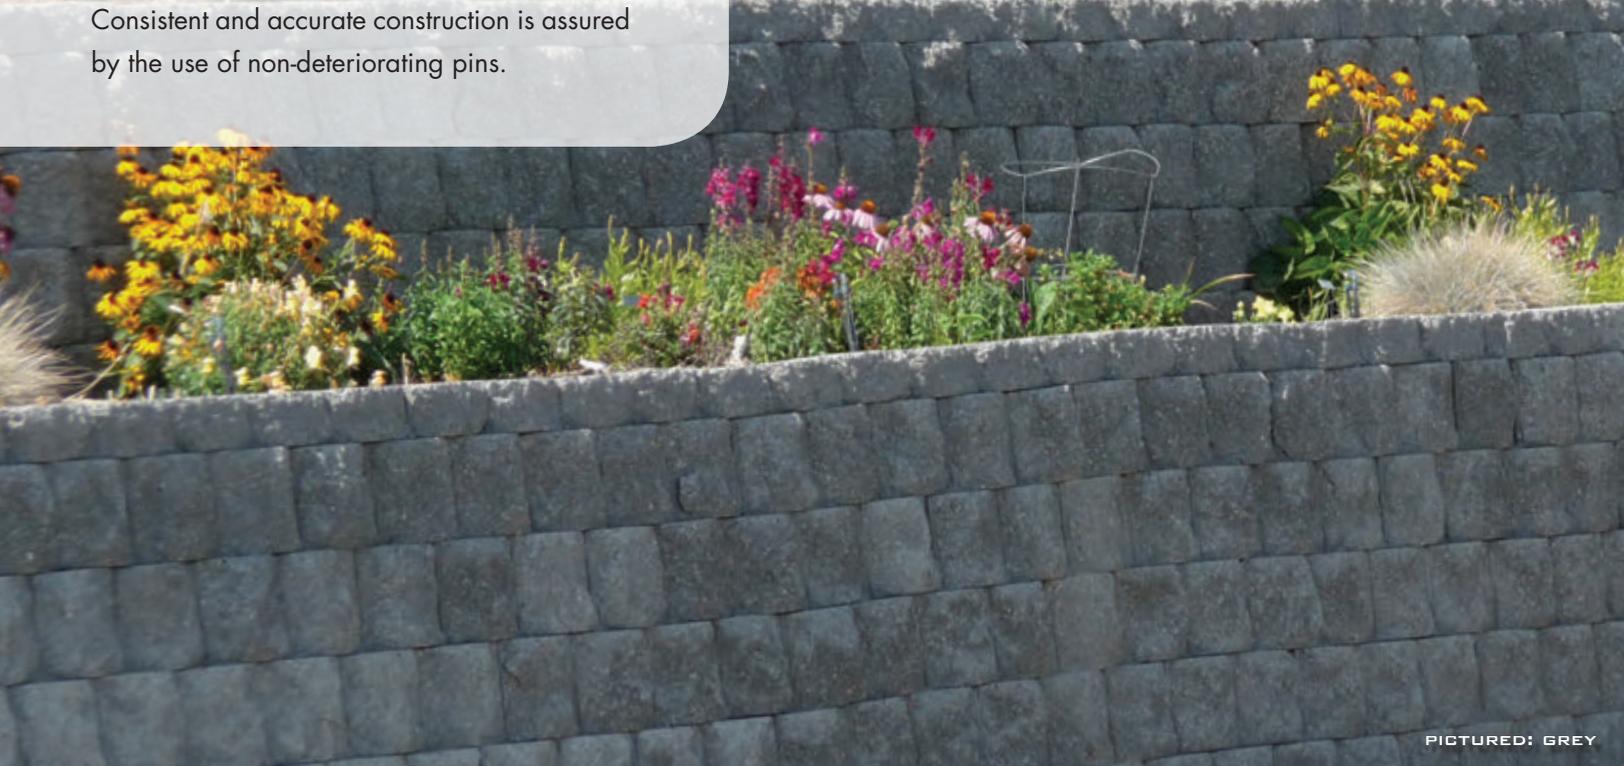

** Available in Gray, Khaki, and Charcoal

STONEWALL

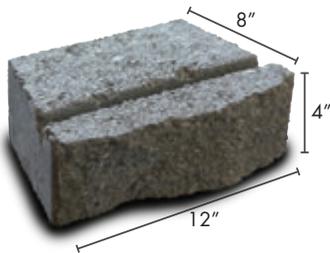

StoneWall is engineered to be a simple way to construct a wall that requires no mortar or footings. Through the advanced hollow core design, the engineer is given the tools to design walls up to 12 feet and higher.

As the blocks are stacked, the mortarless units automatically set back 3/4" per vertical foot. Consistent and accurate construction is assured by the use of non-deteriorating pins.

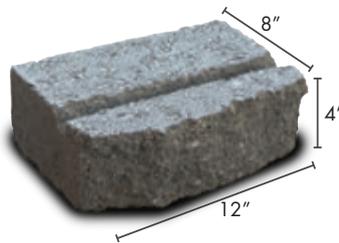

PICTURED: GREY

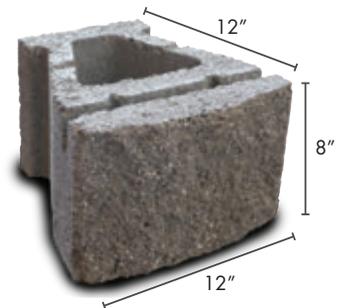

Maximum wall height = 3'

WITH STRAIGHT SIDES

STONEWALL STANDARD

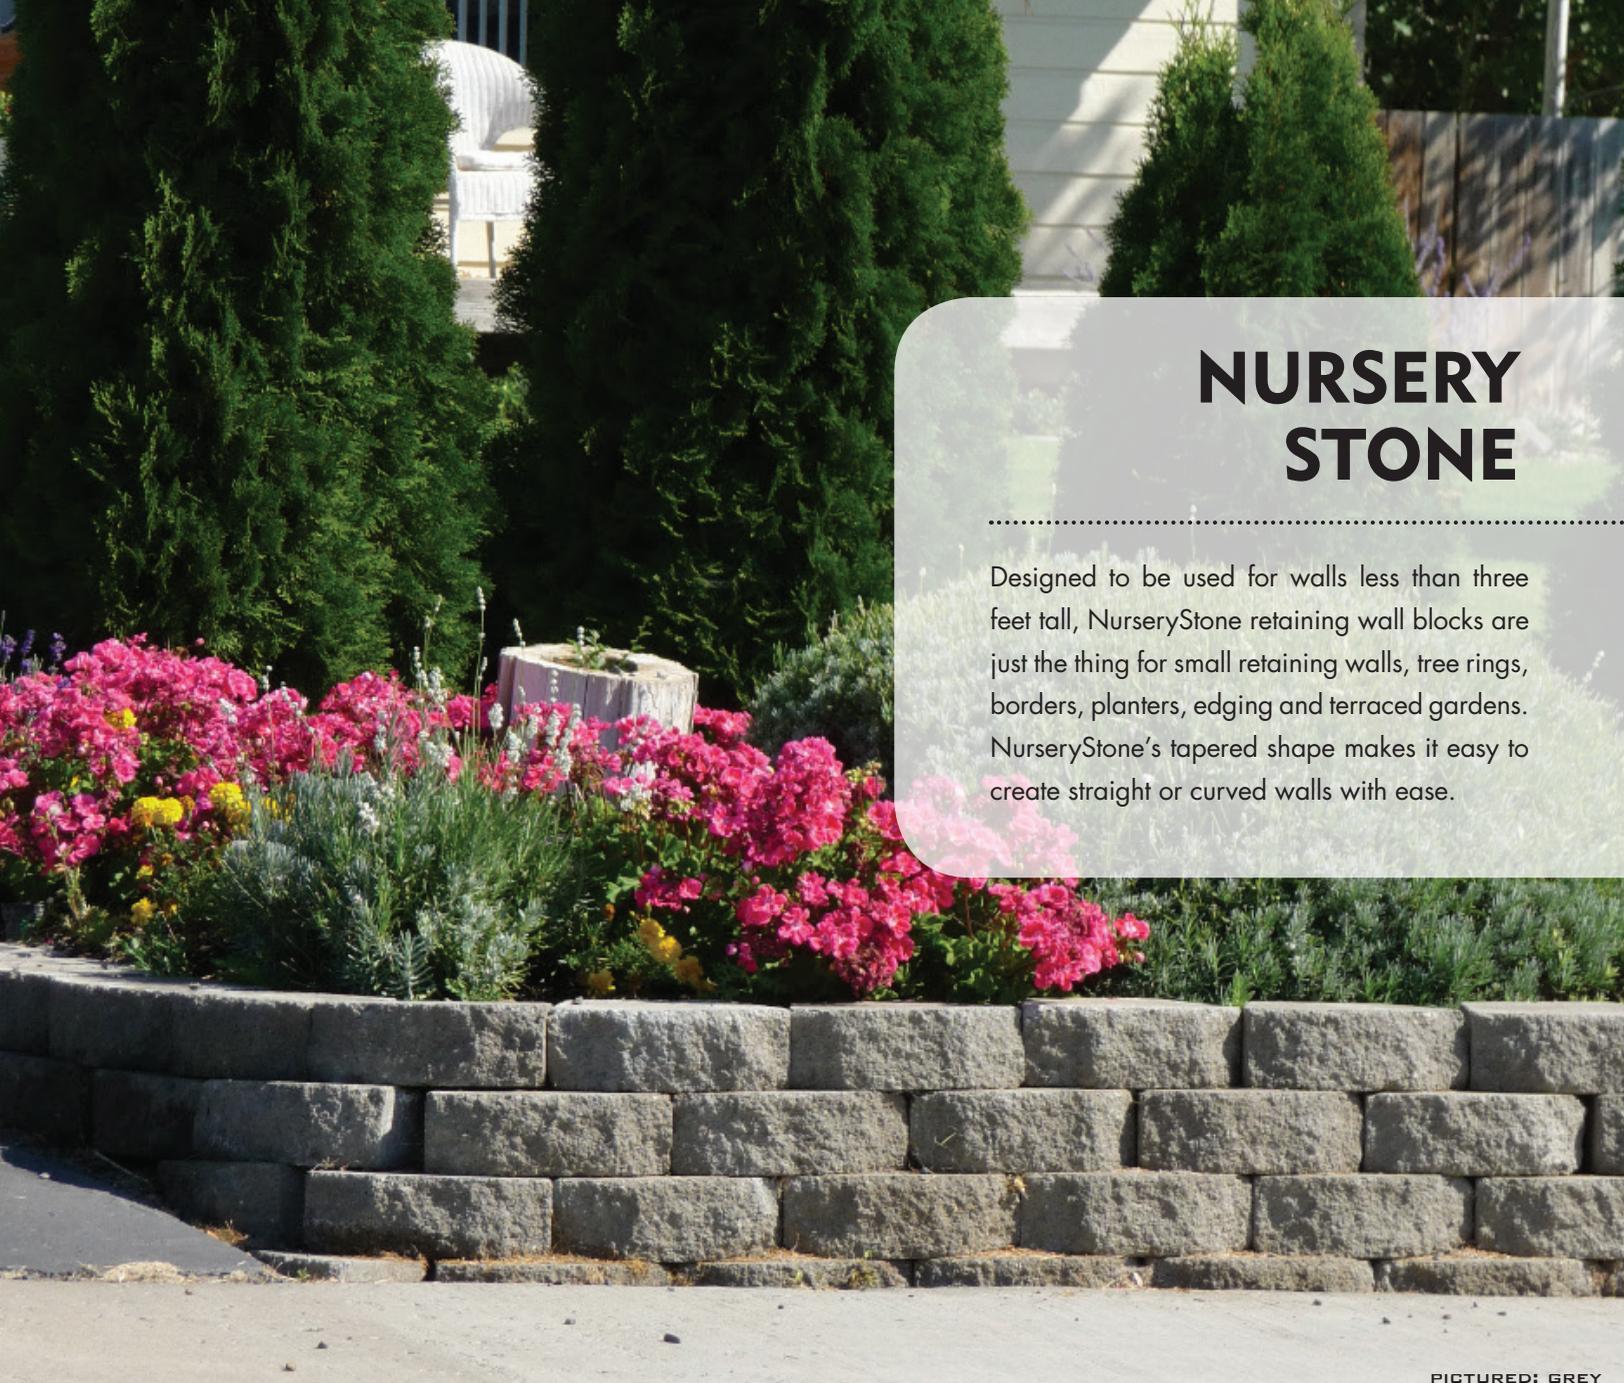

AVAILABLE COLORS

Actual colors may vary. Specification may change without notice, contact your local Western Materials office for details or to see actual colors.

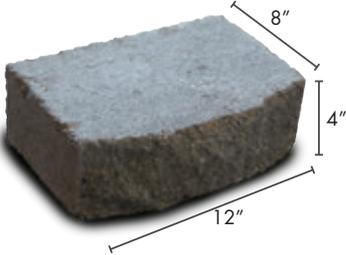

NURSERY STONE

Designed to be used for walls less than three feet tall, NurseryStone retaining wall blocks are just the thing for small retaining walls, tree rings, borders, planters, edging and terraced gardens. NurseryStone's tapered shape makes it easy to create straight or curved walls with ease.

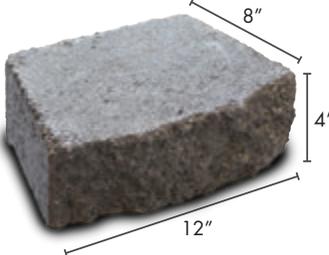

PICTURED: GREY

Maximum wall height = 2'
